

Maira Wellness Provides the Best PRP Treatment in Bangalore

Hair fall can be classified into many categories. One of the most common phenomena is genetic or patterned hair loss. And thanks to the ever-evolving science and technology, we have a solution for this type of hair loss. The most recommended procedure for genetic or patterned hair loss is the PRP method. It is performed by the expert only. Very few clinics are out there that diagnose patients suffering from genetic or patterned hair loss.

What is the PRP method?

The term PRP stands for Platelet-Rich Plasma. It is a non-invasive process that stimulates the damaged hair follicles for instigating Hair to grow naturally. Plasma Hair Treatment or PRP hair treatment is entirely natural designed to cater to both men and women. They are safe and reliable as Platelet-rich Plasma is used to generate new Hair and to improve hair thickness in the scanty areas of the scalp by treating the Hair roots:

Maira Wellness - one of the renowned hair clinics provides the **best PRP treatment clinic in Bangalore**.
